REASONS FOR ALLOWANCE

1. The following is an examiner's statement of reasons for allowance: Upon a complete review of the entire written record the instant application is still in condition for allowance. The two additional PTO-1449 forms have been considered and the scope of the claims is still allowable over all prior art of record. Although the new prior art documents do contemplate additional exposure from the opposite side of the substrate, this exposures occurs at the same time as the initial exposure, and not as a separate step in the instant claims. Additionally, there is no teaching or suggestion of the negative type photosensitive material being applied to a substrate that has a previously disposed member on the substrate. The new prior art references do not show the post exposure bake step as well. In view of the deficiencies of the prior art, the instant application claims are still in condition for allowance.

2. Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

3. Any inquiry concerning this communication or earlier communications from the examiner should be directed to Christopher G. Young whose telephone number is 571-272-1394. The examiner can normally be reached on Monday-Friday.
